

# The DAISY Award

FOR EXTRAORDINARY NURSES

*Congratulations*

to our DAISY Award winner!

## Beth Hinnners, RN

*nomination letter*

"We would like to nominate Beth as an extraordinary nurse. She had a very calming influence on both my mother and our family. Our mother, who was ninety-six, receiving care for congenital heart failure as well as our family felt confident that she was getting the best possible care. We knew she had other patients to care for but made extra effort to see that her needs were met. She spoke to us in a way that we were not afraid to ask questions and explained things in layman's terms that were easy to understand. She was very knowledgeable in her explanations and very thorough.

Beth is very compassionate and makes everyone feel more at ease in all situations. She helped get things started to get mom in Hospice. We appreciated Beth telling us in a compassionate way that we should notify family when her body was getting to a point of letting go and explaining what that might look like. She was always on top of things and is an excellent example of what a nurse should be. We always hated to see her shift end. Thank you, Beth, for all you do."

Anyone can nominate a nurse for the DAISY Award. Excellent nurses demonstrate many outstanding characteristics and qualities that go beyond what is expected.

Help us celebrate the compassion and skill of our HCMH extraordinary nurses by nominating a nurse today!
