

Thank you for your commitment to
ALWAYS
providing exceptional care

Teresa Reinig-Olesch

"On March 17th I returned home from the hospital and went about my day as usual. My son was home with me. I have diabetes which requires close monitoring of my insulin and blood sugars. Teresa and I had arranged that she would come by and drop off some items to me before she headed to work. When she arrived that morning, my blood sugar was so low I was unconscious.

My son had not been able to wake me up. Teresa immediately took action and called the ambulance. When the ambulance arrived, they were able to get me to the hospital and address my blood sugar. Teresa has checked on me several times since, and there is no way to thank her enough."

**Congratulations Teresa,
on becoming a Humboldt County
Memorial Hospital Healthcare Hero!**
