

Thank you for your commitment to  
**ALWAYS**  
providing exceptional care

*Andie Thompson*

Andie is an important member of our healthcare team. Ever the chameleon, she is able to transition from department to department dispensing her expertise, often in times where there are difficult situations, all the while doing this with a smile on her face. Her infectious positive attitude makes her a “silent” leader in helping direct and provide compassionate, patient-centered care. Often times she sees patients and families as they are making difficult lifestyle decisions in transitioning to their new normal and she does this with empathy and assertiveness. For example:

“Andie is amazing!! She is the first person that we have talked with that actually listened to us with no judgement and spoke up for us about what our experience has been and what our wishes were...the patient was so happy to know that someone that knows him and cares for him is helping my husband and I. I know we could have never gotten to this point without her and the help at HCMH.”

There are countless examples of situations where Andie has gone above and beyond with not only patients but her own peers

She exemplifies our HCMH values of Respect, Ownership, Compassion, Integrity, and Teamwork, and we are lucky to call her ours!

**Congratulations Andie on being a  
Humboldt County Memorial  
Hospital Healthcare Hero!**
