

Thank you for your commitment to  
**ALWAYS**  
providing exceptional care

*Morgan Olson*

“My 91-year old grandmother was in the process of leaving this earth. That might be a shock to several people at Humboldt Hospital as she has beat death several, and I mean SEVERAL times with the help of wonderful employees at the hospital. We say she was a cat with 17 lives!

As many of your nurses, doctors, and staff will tell you she wasn't the easiest person to get along with. She was tough and knew what she wanted, but everyone has shown her so much respect. I don't have a specific situation to highlight, but whenever my grandmother was in the hospital she would always ask for Morgan Lyons.

Morgan always made sure she was by her side and really knew how to communicate with her. The last visit we had the whole family come to the hospital and say our “goodbyes”. Morgan made sure our family knew what was going on and all the options we had. Even after Morgan's shift was over, she picked up her children, made them supper, and came back to the hospital to sit and talk with our family. We are extremely thankful for the kindness of Morgan and EVERYONE who has worked with my grandmother over the last several years.

**Congratulations Morgan on being a Humboldt County Memorial Hospital Healthcare Hero!**
