& WELLNESS**

**HCS
MH**

HCMH has a large network of affiliates covering a full array of services available for referral; from pain management, to specialty services and surgery. Enjoy the confidence in knowing that coordination of care is available within one system, all working for you.

Partnering with our customer companies to build and maintain a healthy workforce is what we do.

You are ALWAYS our priority.

HCMH serves the health and safety needs of corporations and businesses throughout the region. Our corporate Health and Wellness Program is designed to help you maintain a healthy workforce. More importantly, we help you control the costs associated with employee physicals, health screens, on-the-job injuries and employee rehabilitation. All the programs and services are designed to help businesses comply with specific industrial requirements. Our team of experts will provide your employees with prompt, quality health care. You can be confident every effort will be made to return your injured employee to work as early as possible. Additionally, your company's health can be evaluated with both clinical and non-clinical data, providing you with a full complement of screening services, many of which can be performed at your business.
